

~ Land Preservation Questionnaire ~

Several options for preserving the natural value of your land exist, some of which you may not be familiar with. These include:

- sale at market value
- bargain sale
- donation to a public or private conservation agency
- conservation easement on privately owned property
- estate planning

The Conservation Foundation, a not-for-profit land and watershed protection organization is a good resource for landowners about these land preservation options. Part of their commitment to *Protect Kendall Now!* is to provide information to interested people.
